Create an Account in Sendgrid:

The screenshot shows the SendGrid web interface. The browser address bar displays `https://app.sendgrid.com/guide`. The left sidebar contains a navigation menu with items: Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS (marked as new). The main content area has a welcome message "Welcome, Newton!" and instructions to follow the setup steps. A prominent blue banner reads "Send your first emails with Twilio SendGrid". Below this, a section titled "Create a sender identity" explains that a sender identity is the "from" email address. It offers two options: "Create a Single Sender" (highlighted in blue) and "Authenticate a domain instead". An illustration shows an email header with "Your Business" as the sender and "jane.doe@your_business.com" as the email address. Below this, a "Send your first email" section states that a sender identity must be created first. At the bottom, a grey bar says "Remove email sending limits", and a footer bar indicates "Finish your account setup" with "2 out of 4 completed".
